Great performance you can rely on

Cooper Controls and our core brands have been leading the market in entertainment lighting controls for over 40 years. Our products can be found wherever dynamic lighting is required, including integrated theatrical, TV, live performance, education, presentation and architainment applications.

Modern venues also demand great performance from every area of the installation; from the theatre to the auditorium, the bar to the restaurant, the facade to the foyer; now all your spaces can be managed easily and flexibly to paint your venue in the best possible light.

This product guide is an introduction to the extensive range of products and solutions available in our performance lighting portfolio; From Consoles to Dimming & Power Control, from Luminaires, Moving Lights and LED Light Fittings to the Data & Network Management Tools necessary to complete the project and deliver great performance you can rely on.
