

# Keyboard Shortcuts

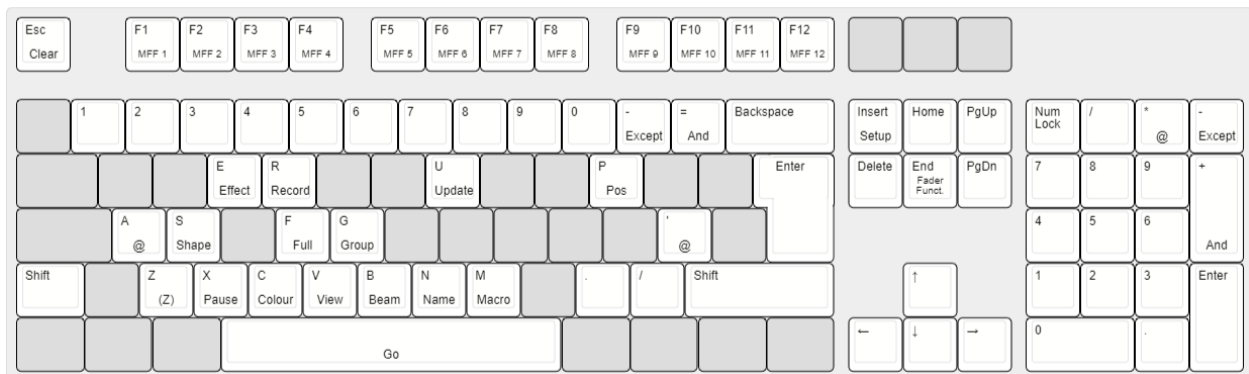

On FLX range consoles, a keyboard shortcut is available for many of the front panel buttons. These shortcuts can be used with a keyboard plugged into the console, Phantom ZerOS, or ZerOS Monitor for Windows, for remote use of the console. Some of these keyboard shortcuts can be used on other ZerOS consoles too.

Click your console to scroll down...

## FLX

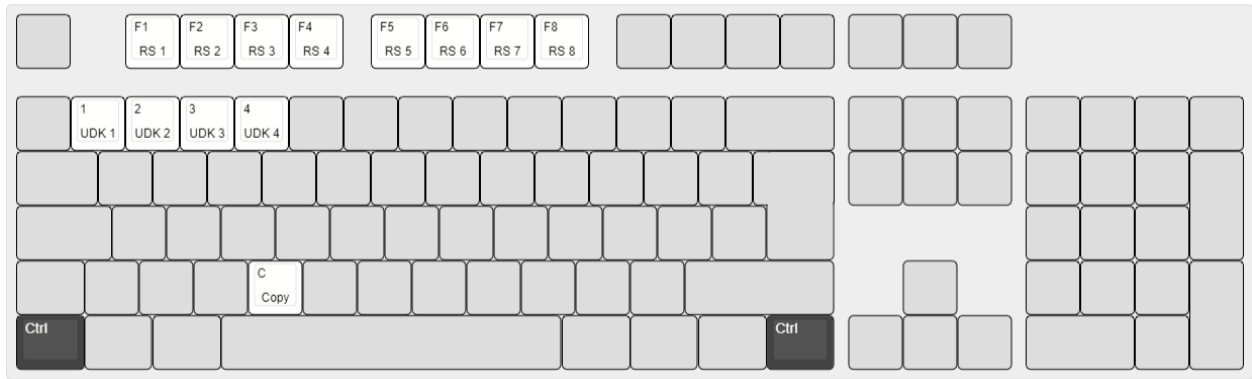

### Normal Functions

### FLX Keyboard functions with Shift held down

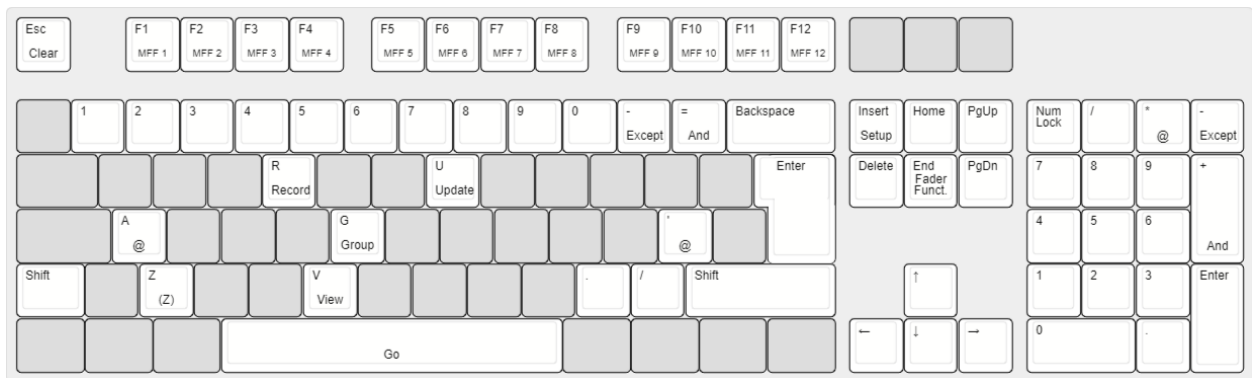

### FLX Keyboard functions with Ctrl held down

When Ctrl is held down, F1 through to F8 mimic Remote Switch triggers 1 through to 8. Remote switches can trigger macros or cues, meaning you can assign yourself eight hot key functions. [Click here for more information.](#)

## FLX S

### Normal Functions

### FLX S Keyboard functions with Shift held down
